Adopted Southwest Community Plan Comprehensive Plan/Zoning Map **Southwest Community Plan (SWCP) Policies** These policies were adopted by the Portland City Council in July 2000. They went into effect on **NOTE: Unincorporated Multnomah County** Southwest . Community December 21, 2001, along with accompanying For unincorporated Multnomah County, the Adopted Southwest objectives and the Southwest Community Plan Community Plan Comprehensive Plan / Zoning Map indicates the Comprehensive Plan designations, not the zoning designations. Contact Planning and Zoning Information at the City of Portland for Comprehensive Plan/Zoning Map. The Comprehensive Plan/Zoning Map must be consistent with these policies and other relevant city, Metro and state policies and regulations. **Land Use and Urban Form** Enhance Southwest Portland's sense of place as a community and a collection of distinct neighbor----hoods. Accommodate Southwest Portland's share of regional growth while protecting the environment in all areas. Encourage the realization of compact, transit and pedestrian-friendly, mixeduse centers while responding to the need for a range of housing types and prices. Outside of the mixed-use areas, allow infill housing opportunities which increase neighborhood diversity, stability and home ownership while limiting redevelopment. **Public Facilities** Ensure adequate public facilities for both existing and new development through equitable funding mechanisms. **Marquam Hill Plan Envelope** Citizen Involvement Existing Comprehensive Plan/zoning Ensure that the policies and objectives of the Southwest Community Plan are used to guide the collaborative actions of the city and Southwest Veteran's Hospital (within the boundary citizens for the next 20 years. Involve citizens integrally in the Southwest Community Plan from concept through evaluation and revision. **Economic Development** Maintain and build upon Southwest Portland's position to attract and support economically viable neighborhood and regional employment centers. Foster businesses and commercial developments that are compatible with the desired scale and character of each center. The most desirable businesses include those which predominantly provide family-wage jobs. Housing Provide a variety of affordable housing choices adequate to meet the needs of current and future Southwest residents. Regard the existing housing stock as one resource to meet this need. Encourage development of housing types that will increase home ownership opportunities for Southwest residents. Parks, Recreation and Open Space Enrich neighborhoods and the Southwest community as a whole with ample, accessible, and well-maintained parks and open space. Preserve and enhance the natural habitat features of Southwest Portland's parks and open spaces. Ensure a wide range of recreational opportunities for Southwest citizens. **Public Safety** Enhance the level of community responsibility for a secure and safe living environment through shared efforts of residents, public agencies, institutions, and businesses. Maintain a high level of public safety and security for residents, employees, and businesses. **Transportation** Provide a balanced, multimodal transportation system in Southwest Portland that encourages increases in transit use and pedestrian accessibility and connectivity, discourages non-local traffic in residential areas, manages congestion, and focuses on improving and maintaining arterial and local streets. Watershed Protect and enhance Southwest Portland's TEXAS ST environment and natural resources on a watershed by watershed basis. Integrate stormwater management into land use planning and development in a way that prevents net degradation of water quality, aquatic, streamside and riparian habitats and ecosystems, and plant and animal habitats throughout the stream corridor. What is the adopted map? How was it developed? The primary product of the Southwest Community Plan project is an update to the City of Portland's Comprehensive Plan/Zoning Map. The Comprehensive Plan/Zoning Map guides growth, development, and conservation; protects community livability; and provides certainty for those wishing to develop their land. The adopted map integrates work done previously by southwest neighborhood associations with new information about environmental resources and site-specific issues, and the outcome of public discussions and Planning Commission's and City Council's deliberations. What is zoning? Portland's official Zoning Atlas and Zoning Code identify specific base zones for each lot. Base zones guide new development by determining allowed uses and densities, and some aspects of design including the size, placement, height, and setbacks of buildings. What are Comprehensive Plan designations? Base zones correspond to and implement Comprehensive Plan designations. Some Comprehensive Plan designations have more than one implementing zone. For example, the Urban Commercial Comprehensive Plan designation can be implemented by either the Mixed Commercial (CM) zone or the Storefront Commercial (CS) zone. The map legend (below) describes both the Comprehensive Plan designations and the corresponding zones. What about overlay zones? Overlay zones and plan districts provide additional specificity to address unique types of land use situations. Their elements supplement or supersede certain aspects of the base zone regulations. This map indicates areas that have the 'd' Design Overlay zone applied. Other overlay zones, such as environmental overlay zones and the Scenic Overlay zone, are not indicated on this map because they did not change as Bureau of Planning part of the Southwest Community Plan process. 1900 SW 4th Ave., Suite 4100 Portland, OR 97201-5350 **NOTE:** Lot lines and rights-of-way The geographic data used to create this map were originally produced by the Oregon Department of Revenue, and modified and updated by Multnomah County Assessment and Taxation. It identifies tax lots, and does not necessarily represent what exists **Barbur Envelope** on the ground. For instance, a platted right-of-way may be shown on the map where there is currently no paved street. This is not a mapping error; it is a not included in the Southwest Communit Plan Comprehensive Plan/Zoning Map reflection of the difference between tax lot data and update. This area will be included in a the actual built environment. future planning process that will address its unique issues and opportunities. This future planning process will update the Comprehensive Plan/Zoning Map for the This map illustrates the Southwest Community area currently known as the West Portland Town Center, and a portion of the Barbui Plan as adopted by the Portland City Council on Boulevard corridor from SW Miles Street Nov. 21, 2001. It is for reference purposes only. to the City boundary. Comprehensive Plan/Zoning Designations **COMPREHENSIVE PLAN/ZONING INSTITUTIONAL RESIDENTIAL GENERAL COMMERCIAL DESIGN OVERLAY** Only designations that are indicated on the maps are provided in the legend. Allows large institutional campuses such as medical centers, colleges, high schools, and universities. Allows a full range of commercial uses that have The 'd' Design Overlay zone promotes the conservation, enhancement, and continued vitality of This designation also allows residential uses. local to regional markets. Development is areas with special scenic, architectural, or cultural value. It is also intended to promote infill developpredominately auto-oriented. The intended ment that is compatible with the neighborhood. This is achieved by applying the 'd' Design Overlay **OPEN SPACE** IR — Institutional Residential placement of the CG designation is on major streets zone and in some instances creating design districts (such as the Macadam Plan District and Allows uses such as parks, natural areas, community centers, and cemeteries. in developing areas and for large older areas with an Hillsdale Plan District). Certain changes to property within this overlay zone require design review or established auto-oriented development pattern. This compliance with the Community Design Standards, and may also be required to meet specific **NEIGHBORHOOD COMMERCIAL** OS — Open Space designation also allows residential uses. design district standards. Allows small-scale neighborhood-oriented commercial uses in and adjacent to residential areas. CN1 is focused toward the pedestrian while CN2 is more auto-oriented. These designations also allow CG — General Commercial d — Design Overlay SINGLE-DWELLING RESIDENTIAL Allows single-family houses. Except for RF, minimum lot sizes are represented by the number following the "R." For example R5 requires a minimum lot size of 5,000 square feet. **CN1** — Neighborhood Commercial **CENTRAL COMMERCIAL COMPREHENSIVE PLAN AND ZONING DESIGNATIONS DIFFER** Allows a full range of commercial uses. This is the Areas where the zoning differs from the Comprehensive Plan RF — (Residential Farm and Forest) Farm and Forest **CN2** — Neighborhood Commercial City's most intense designation, intended for the designations most developed parts of the city with the highest level R20 — (Residential 20,000) Limited Single-Dwelling **OFFICE COMMERCIAL** of public services. The CX zone encourages TOWN CENTER/MAIN STREET BOUNDARIES R10 — (Residential 10,000) Low Density Single-Dwelling pedestrian-oriented development. This designation Gives preference to office uses over other commercial uses. The intent of CO1 is to blend into These are the adopted boundaries for the Garden Home, Macadam and Multnomah Main Streets, also allows residential uses. residential areas. CO2 allows the location of more intense developments near major streets. These and the Hillsdale Town Center. The Southwest Community Plan revised the original Hillsdale R7 — (Residential 7,000) Medium Density Single-Dwelling designations also allow residential uses. Town Center Boundary, adopted in November 1997. Boundaries for the Raleigh Hills and West **CX** — Central Commercial R5 — (Residential 5,000) High Density Single-Dwelling Portland Town Centers are not shown. Future planning processes will determine the exact nature and **CO1** — Office Commercial location of these mixed-use areas. **AREA MAPPED** MIXED EMPLOYMENT R2.5 — (Residential 2,500) Attached Single-Dwelling

CO2 — Office Commercial

CS — Storefront Commercial

CM — Mixed Commercial

Allows a full range of retail, service, and business uses that serve local and regional markets. The

intended location of Urban Commercial is primarily in areas served by transit. The corresponding

zones are Storefront Commercial (CS) and Mixed Commercial (CM). Development should have a

strong pedestrian focus. The Mixed Commercial zone allows commercial uses while requiring 50

percent of new development to include residential uses. The Storefront Commercial zone allows, but

URBAN COMMERCIAL

does not require, residential uses.

MULTI-DWELLING RESIDENTIAL

RH — High Density Multi-Dwelling

Allows apartments, rowhouses, duplexes and single-family houses. Except for RH, density is

densities are based on a floor area ratio, rather than the number of units per square foot.

R2 — (Residential 2,000) Low Density Multi-Dwelling

R1 — (Residential 1,000) Medium Density Multi-Dwelling

indicated by the number following the "R." For example R2 allows one unit per 2,000 square feet. RH
